

K-LOVE is an encouraging radio broadcast in our local community. It provides clean entertainment for my family (esp 2 children). It provides hope and good advice/scripture for me(everyone) throughout the day. Replacing it with an LPFM broadcaster with other commercial based programs (without moral values) would be devastating

to my family. The fact that it is "listener supported" proves that the community obviously thinks it is worth keeping on the air. Thank you, Angela Clemons, pharmacist and law enforcement officer
